All entry times (25m) entered must be those achieved at a licensed meet since 1 January 2006.

Entry times for the 800m and 1500m events can be from bona fide times established at meets where results are published but are not necessarily licensed meets.

Swimmers who achieved times equal to or faster than the published time are guaranteed acceptance (except for the 800m and 1500m where the number of swimmers accepted may have to be restricted because of time constraints).

Depending on the number of entries received for the Championships and the number of competitors in each event entries with times slower than the published time, may be accepted at the discretion of the organisers.
