

### Updates/General Information for swim21 accredited clubs – October 2016

During a previous ASA Club Development Management Group meeting (formerly the swim21 National Panel), a decision was made to compile an update following each quarterly meeting (March, June, September and December) and circulate this to all swim21 accredited clubs. The following is the latest update:-

#### **swim21 Updates:-**

- Following recent changes to swim21 Essential please find enclosed a copy of the new Accreditation sheet. Revised templates/guidance documents for the Essential module have been added to the ASA website - <http://www.swimming.org/library/95>
- Please note that changes to the portal will go live next week (w/c 3<sup>rd</sup> October), in line with the recent changes to swim21 Essential, however your club will still be able to view information from your previous/current accreditations
- The swim21 Working Group are planning to start to look at swim21 Network and Performance modules in the new year – information will be circulated once available
- If you have forgotten your password for the swim21 portal please note there's a 'Forgotten Password' button on the portal login page, which will enable you to change this
- Please note that moving forward we require 'wet' signatures (rather than electronic signatures) for swim21 purposes i.e. for elements 6, 7, 11 and 16
- Please note that DBS 'e' numbers are not acceptable for swim21 – e numbers illustrate that an online application has been made, however the disclosure hasn't been processed at this stage
- If you have club members/previous members who no longer require access to the swim21 portal please email [clubdevelopment@swimming.org](mailto:clubdevelopment@swimming.org) and we will deactivate the respective accounts

#### **General Updates:-**
