

# Club Matters Update

## September 2017

Club Matters is Sport England's one stop shop for sports clubs. Club Matters provides free, convenient and practical resources to help you develop and run a sustainable club. Click here to [register for Club Matters](#) so you too can benefit from the free resources available.

Here is an update on some of the ways your club can benefit from Club Matters...

### Enhancing your club experience for young people

Young people are keen to develop their identities. They want positive experiences that are social, collaborative, rewarding and personalised. Club Matters' new guidance provides an insight into youth personalities, which will help sports clubs create the best possible experience for them.

The Club Matters support also shows clubs how to engage with young people in a way that's right for them. [Click here to start exploring the new material.](#)

### Clean sports guidance for clubs

Club Matters has teamed up with UK Anti-Doping to bring guidance to sports clubs and promote clean sport. In this new section of the Club Matters website, clubs can find out what doping can involve, download resources illustrating a best-practice approach to anti-doping and access links to further support.

[Click here to access the new Anti-Doping Guidance](#) and support your members today.

### Be part of the biggest celebration of sport across the continent

23rd to 30th September is European Week of Sport. This is a fantastic opportunity for clubs across the continent to come together and celebrate sport and physical activity.

Find out how to get involved and raise the profile of your club and sport by clicking [here](#).
