

# Athlete Contribution to South East Region Training Camps

During the year disciplines either run or can run training camps either on-shore or off-shore and in order to avoid any confusion the Region has agreed a level of contribution for the athletes attending these camps.

On-shore camps in the UK the athletes will contribute £25 per day.

Off-shore camps the athletes will contribute £50 per day to include contribution to group travel and accommodation. Off-shore camps will be held in Europe.

The total cost of camps will be in the agreed budget of the discipline. The Region may reduce or remove the contribution of athletes from low-income families.
